Graduate Student Research Grants
Award for Outstanding Undergraduate Project

Introduction: Rural School Closures and Agrarian Change

Presentation Overview

- Geographic and theoretical context
- Phase 1: Geospatial analysis
- Phase 2: Case study
 - Agribusiness and territoriality
 - Importance of social organization

David Meek

The Political Ecology of Education

BRAZIL'S
LANDLESS
WORKERS'
MOVEMENT
AND THE
POLITICS OF
KNOWLEDGE

Professional Trajectory

- Active field research since 2009
- 2 years of ethnographic fieldwork (2009-2013)
- Member of national coordination of FMST
- Movement hypothesis: Origins for this project
- Participatory research with other agrarian social movements

Case Study Locations

Landless Workers' Movement

MST

Education and the Agrarian Question

Education and the Agrarian Question

(-) creating space devoid of peasantry

Education and the Agrarian Question

(-) creating space devoid of peasantry

(+) creating space for the peasantry

Educação do campo

Emphasizes:

Agrarian identity

Agroecology

Food sovereignty

1. What is the spatial nature of this phenomenon?

Rural School Closings in Brazil

1. What is the spatial nature of this phenomenon?
2. What are the factors driving the closures?

Rural School Closings in Brazil

1. What is the spatial nature of this phenomenon?
2. What are the factors driving the closures?
3. How are local communities resisting?

Phase 1:
Geostatistical
Analysis of Rural
School Closures

—

Methods

- Brazilian educational census data (*Censo Escolar-INEP*)
- 1994-2018
- Separated to municipal level; all school types
- # Rural/urban schools (1994, 2018)
- [1994(r)- 2018[r]
- ArcGIS 10.6

Methods

- Hot spot analysis (Getis-Ord)

Methods

- Hot spot analysis (Getis-Ord)
- Distribution of high/low values

Methods

- Hot spot analysis (Getis-Ord)
- Distribution of high/low values
- Not just high values

Methods

- Hot spot analysis (Getis-Ord)
- Distribution of high/low values
- Not just high values
- Relationship between features

Methods

- Hot spot analysis (Getis-Ord)
- Distribution of high/low values
- Not just high values
- Relationship between features
- Output map of Z-scores, P-values

Finding Clusters

- Spatial autocorrelation (Moran's I)
- Significant P-values
- Hot Spot analysis (Getis Ord)

What is driving this process?

- Illiteracy?
- Educação do Campo?
- Family farming?
- Land structure?
- Migration?
- Race?
- Social movements?

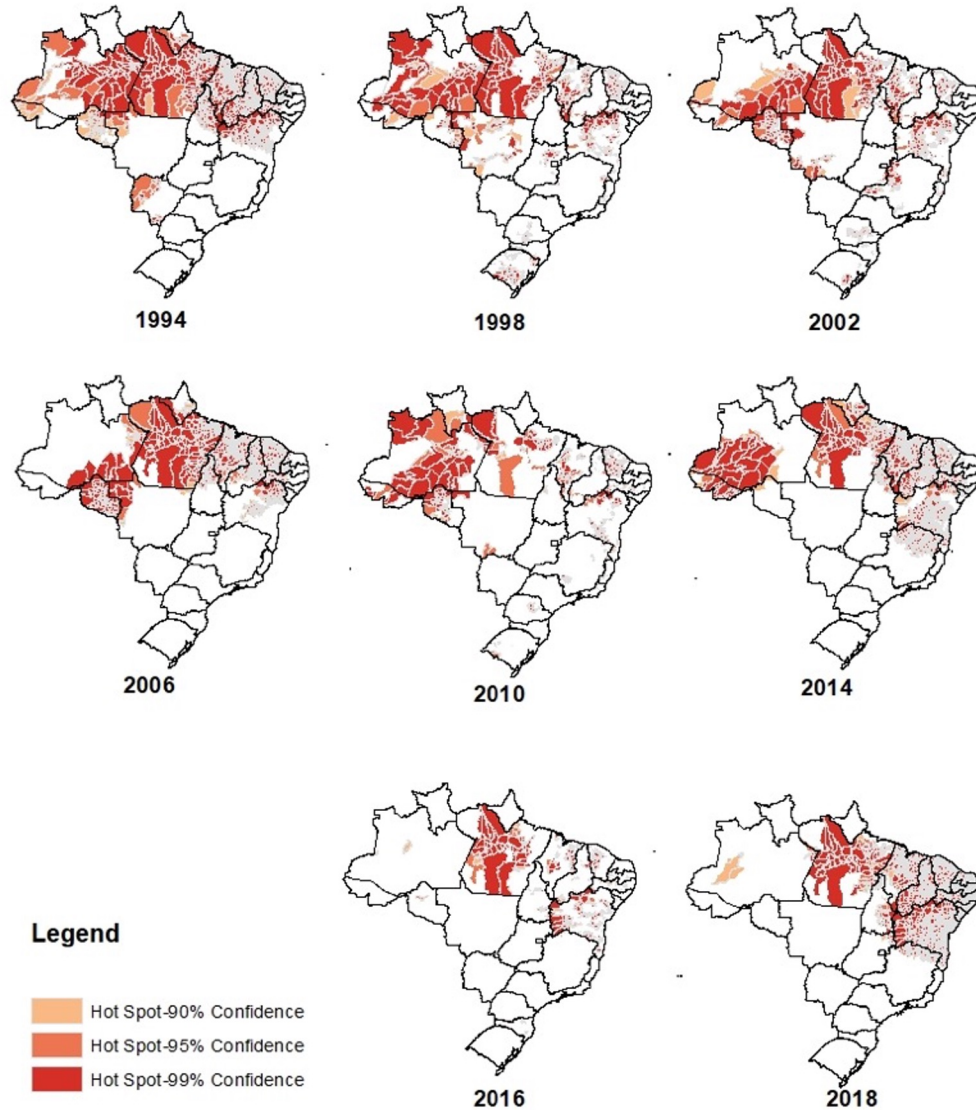

What is driving this process?

- Illiteracy
- Educação do Campo
- Family farming 
- Land structure
- Migration
- Race 
- Social movements

What is driving this process?

- Illiteracy
- Educação do Campo 
- Family farming 
- Land structure 
- Migration
- Race 
- Social movements

Hot Spots of Rural Municipal School Closures Grouped by Federal Election Cycles

Phase II: Qualitative Data Collection

Phase II

- Three Case Studies:

- Pará
- Tocantins
- Maranhão

- 30 interviews, 3 focus groups, site visits to schools and sites of env. exploitation

- **The Slow March to Closure: Textbooks and Territoriality**

What Keeps Schools Open?

“The Key is an Organized Community “

Conclusions

- Ongoing process of expansion and resistance
- Cultural erasure and territorial transformation
- The importance of social organization and endogenous education

Obrigado!
